Forest Management

Crow Wing County Natural Resource Management Division, as stewards of County administered land, is committed to carefully managing forestland for long term forest health and sustainable timber productivity by ensuring the proper balance of harvesting and renewal efforts.

- Over the last 5 years, Crow Wing County has planted 580,585 trees on Tax Forfeit property.
- Each year protection efforts are undertaken to help protect the young conifer seedlings from deer browse. In 2008, 112,100 budcaps were installed on pine seedlings.
- Two timber sales are held each year that generates approximately \$663,200, of which a portion is distributed throughout the County to the Cities, Townships, School Districts and County Revenue/Building Fund.

Land Asset Management

The Crow Wing County Natural Resource Management Division manages 105,792 acres of Tax Forfeited and County Owned land. We are committed to maintain and improve the County's land base for public benefit.

- Crow Wing County has acquired more lakeshore footage than has been traded or sold. *
 - ◊ Acquired Lakeshore Footage = 17,858 ft
 - ◊ Traded/Sold Lakeshore Footage = 6,424.5 ft
- Crow Wing County promotes no net loss of the amount of land within the tax forfeited land base. This is achieved through land exchanges, acquisitions or partition actions.
